

# ALLIES READY TO ENFORCE REPARATIONS

Will Confer at Genoa to Determine  
on Action in Event Germany  
Fails to Pay

## EUROPE IN PERIL

Lloyd George, in Alarmist Address,  
Points to Dangers of Russo-  
German Treaty

(By the Associated Press)  
Genoa, April 26. — Announcement  
by the British delegation that a meet-  
ing of the signatories of the Versailles  
treaty will be held in Genoa within a  
fortnight to determine upon action in  
the event of Germany's failure to meet  
her reparation obligations at the end  
of May was the chief feature of to-  
day's conference activities. This call  
for a meeting of the Allies was in-  
spired by Premier Poincare's Bar Le  
Duc address intimating that France  
was prepared to act alone if the Allies  
failed to support her in enforcing the  
treaty.

Poland replied to Russia's protest  
charging the Poles with violating  
treaties with Russia and seeking to  
undermine Russian sovereignty. The  
Poles replied asserting that the Poles  
were endeavoring to assist in the re-  
construction of Russia and had no  
thought of violating their treaty  
agreements with Russia.

While the leading statesmen as-  
sembled in Genoa were consulting each  
other on what kind of a reply they  
should make to the Bolshevik counter-  
proposals, and what would be the  
probable scope of the non-aggression  
pact which is proposed to submit  
to the conference, the experts here  
from many lands were hurrying on  
with their technical work connected  
with economics, finance and transport.  
The transport commission held a  
final session and recommended the  
urgency of the powers adopting all  
possible measures in concert to im-  
prove the transport system of Europe.  
The League of Nations was asked to  
involve the nations, whether members  
or non-members of the league, to  
work together on technical matters  
furthering the cause of transport.

Lloyd George as an alarmist.  
Premier Lloyd George drew an  
alarmist picture of Europe tonight.  
In addressing the British and Ameri-  
can press representatives, he declared  
that the object of the Genoa confer-  
ence was to clear up political differ-  
ences, which were the cause of man-  
age.

He compared Europe to settling  
racial wars, which, like the earth's  
crust, was seeking a proper level.  
This readjustment was full of peril.  
He emphasized that Europe must  
take cognizance of hungry Russia,  
which would be equipped by an an-  
gry Germany.

"The world must recognize the  
fact," he said, "that Russia and Ger-  
many combined contain over two-  
thirds of the people of Europe. Their  
voice will be heard, and the Russo-  
German treaty is the first warning of  
it."

Proof of Danger.

As proof of danger, he cited that  
there was no frontier line from the  
Baltic to the Black sea, including the  
Rumanian, Galician, Polish and Lith-  
uanian frontiers, which had been ac-  
cepted.

"If America were here," he ex-  
claimed, "Some people think we want  
the United States for some selfish  
reason. This is not true. We want  
America because she exercises a pe-  
culiar authority; her very aloofness  
gives her the right to speak."

"America could exercise an in-  
fluence no other country could com-  
mand. She could come here free and  
disinterested, and with the prestige  
which comes from her independent  
position. She would come with the  
voice of peace."

"But America is not here; so Eu-  
rope must do her best to solve the  
problem in her own way."

Mr. Lloyd George gave it as his  
opinion that the disorganization of  
Europe would affect the entire world,  
including the United States. He was  
amused at people who ignored the  
portentous facing Europe today. Un-  
less Europe reorganized, in other  
words, unless the Genoa conference  
succeeded in arranging a pact of  
peace, he was confident that in his  
own life, certainly in the life of the  
younger men present, Europe would  
again veer in blood.

## WARRANTS ISSUED IN PROBE OF LOS ANGELES KU KLUXERS

Los Angeles, April 26. — Warrants  
for the arrest of Walter E. Mosher  
and Leonard Ruzick, members of a  
party which conducted a raid at En-  
glewood last Saturday night and  
said to be members of the Ku Klux  
Klan, were issued late today.  
District Attorney Woolwine later  
obtained a search warrant directed  
against the local officers of the Ku  
Klux Klan. He dispatched an auto-  
mobile team of deputy sheriffs and in-  
vestigators to the office of William S.  
Coburn, grand goblin, with instruc-  
tions to take possession of all books,  
papers, documents and other evidence  
relating to the activities of the Ku  
Klux Klan in Los Angeles county.

## TO COMPLETE WILSON DAM

Washington, April 26. — An in-  
formal agreement that the Wilson  
dam at Muscle Shoals, Ala., should be  
completed was understood at an au-  
thoritative today by members of the  
house military committee at an exe-  
cutive meeting called to consider pri-  
vate proposals for Muscle Shoals de-  
velopment, with a view to drafting a  
report to the house.

# LEWIS AT TRIAL OF VIRGINIA MINERS

Defense Wins Fight for Amplifica-  
tion of Bill of Particulars  
Filed by State

(By the Associated Press)  
Charlestown, W. Va., April 26. —  
John L. Lewis, international president,  
sitting at today's session of the trial  
of officers and members of the United  
Mine Workers of America on charges  
of treason and other offenses alleged  
to have been committed in the  
marching and fighting last year,  
saw the defense win its fight in the  
case of Willard Billzard for amplifica-  
tion of the bill of particulars filed by  
the state.

The bill, filed when court opened,  
alleged that Billzard assisted in as-  
sembling the forces which crossed  
Boone county and battled with state  
and county forces on the Logan-Boone  
border, that he induced officials of the  
local union to provide funds for arm-  
ing the attacking forces, that he di-  
rected them to invade Logan and  
Mingo counties, and that he person-  
ally took part in the battles at Blair  
and furnished ammunition for the  
fighters.

On that portion respecting the fur-  
nishing of funds, T. C. Townsend and  
Harold Houston, defense council, de-  
clared that more specific information  
was needed as to which of the 684  
locals in districts 17 and 29 of the  
miners' organization were alleged to  
have furnished these funds, and was  
upheld in this request by Judge  
Woods.

Another incident of the session was  
the claim of each side that its wit-  
nesses were being intimidated and  
statements that Judge Woods' rulings  
were improper in the presence of  
talesmen.

## CHOIR BOY PLEADS GUILTY TO MURDER

Judge Tells Him He Is Lucky to Be  
Alive, as Confederates Planned  
to Doublecross Him

New York, April 26. — Judge Tier-  
ney, in Richmond county court today,  
disclosed a plot to murder and rob  
Joseph Conigal, a 19-year-old choir  
boy, by confederates who sought to  
doublecross him after he had, for  
\$15,000, arranged for the successful  
looting of a Staten Island liquor ware-  
house.

The judge made his disclosure in  
accepting from Conigal a plea of mur-  
der in the second degree after he had  
been indicted for first degree in con-  
nection with the shooting of Michael  
Connor, an aged watchman who tried  
to prevent the robbery.

"Conigal," said the judge before  
sentencing him to 20 years in Sing  
Sing, "You are the luckiest man in the  
world to be able to stand here today  
and plead guilty to murder in the sec-  
ond degree."

"On the night of March 1, three  
gunmen were after you, and not after  
Waterman Connors. They believed  
you had the \$15,000 on your person  
and if they had not been seen they  
would have shot you down like a dog  
to get the money."

"News of the plot whereby New York  
gunmen were 'tipped off' to get Coni-  
gal after the robbery came from  
James Primus of Brooklyn, who also  
pleaded guilty to second degree mur-  
der and was given a sentence similar  
to Conigal's."

"The \$15,000 had been paid  
Conigal. It was learned gunmen were  
hired to get the boy after the liquor  
was seized, in order to seal his mouth  
forever."

## MOVIES TO DEVELOP A CODE OF ETHICS

Industry Views Its Relationship  
With Public in Same Light as  
Press, Hays Declares

New York, April 26. — The motion  
picture industry views its relationship  
with the American public in the same  
light as does the American press, Wil-  
liam Hays, director of the industry, told  
a group of magazine and newspaper  
publishers at a dinner given them in  
his home tonight.

Just as the press has developed a  
code of ethics, and a sense of what  
can be done and what must not be  
done, so is the motion picture indus-  
try seeking to develop a standard of  
practice that will be approved by the  
American people, he said, and asked  
his hearers to remember that while  
the ethics of the newspaper man had  
grown through hundreds of years the  
silent drama had a history of but  
twenty years and must be allowed  
time to standardize its practice.

## MAN CAUGHT REMOVING TORSO HELD FOR SLAYING LANDLORD

Brantford, Ont., April 26. — Captured  
with a suitcase containing portions  
of a human body, which he was re-  
moving piecemeal from his room,  
Harry Dent was charged today with  
the murder of Peter Yeknazir, his  
landlord. Mrs. Dent was held on a  
similar charge.

The torso of the slain man was  
found in Dent's room, while the head  
and arms, which Dent admitted he  
had carried away on an earlier trip,  
were found in a canal.

Dent denied the crime, asserting  
he was removing the body at the re-  
quest of a friend.

# All Russians Aren't Starving

The popular belief is that no one in Russia has good clothing or shoes and that none are well-fed. This photo of three Russian delegates to Genoa belies that impression. Left to right, Joffe, Litvinoff and Rontzula.

## ANOTHER RUM RUNNER NABBED

New York Police Seize Cargo  
Worth \$90,000, After Thrill-  
ing Harbor Fight

This time it was the clumsy-looking  
but surprisingly spry steam lighter,  
Ideal, which was captured after a  
wild chase by two patrol boats along  
the Brooklyn shore, in an out among  
the anchored craft; a volley of pistol  
shots fired by the police, and a hand-  
to-hand fight on the smuggler's deck,  
in which night sticks and revolver  
blows were freely used.

Monday morning it was the former  
submarine chaser 101, renamed the  
Fidus, that was caught after she had  
made the cargo worth \$90,000.

Quarantine and police captain  
explained his empty hold by stating  
that whiskey he was taking from Ber-  
muda to Montreal had been pirated  
off Montauk Point.

The tip end of Long Island seems to  
be a popular rendezvous for bootleg-  
gers, in the opinion of port authori-  
ties, for the crew of the Ideal reported  
that they had taken aboard their  
cargo of liquor from a three-masted  
schooner also lying off Montauk  
Point.

Dry agents, who had been busy  
strengthening the harbor, thrown  
along the Canadian border to plug the  
flow of liquor into the United States,  
seemed to be impressed with the  
marine activities of rum runners this  
week. Some expressed the opinion  
that, dammed to the north, forbidden  
fluids were rolling in from the east,  
finding the sea route less obstructed  
than the land.

Today's confiscated cargo turned  
out to be 1,500 cases of excellent rye.  
It was of a brand much of which has  
reached New York from Baltimore,  
and dry agents are seeking to establish  
whether the schooner which the Ideal  
had put into the Maryland port  
for its supply. Revised valuation, based  
on prevailing prices of \$10 a case,  
made the cargo worth \$90,000.

United States Attorney Greene of  
Brooklyn, who has been investigating  
the Fidus case, expressed belief that,  
instead of having been raided by a  
private craft off Long Island, the ex-  
submarine chaser had transferred her  
stock to the fishing schooner Comanche,  
which was overhauled by revenue cut-  
ters off Atlantic City yesterday.

## PRESIDENT HARDING SPEAKS AT GRANT CENTENNIAL TODAY

Washington, April 26. — President  
Harding, accompanied by Mrs. Hard-  
ing and a number of friends, left  
Washington late today for Point  
Pleasant, Ohio, where he will deliver  
the address tomorrow at exercises  
commemorating the centennial of the  
birth of General Grant.

The presidential train is due in Cin-  
cinnati tomorrow morning, from where  
the party will proceed to Point Pleas-  
ant by boat. The President intends  
to return to Cincinnati immediately  
after delivering his address and is ex-  
pected back in Washington Friday.

## N. Y. CENTRAL SHOPMEN ASK OSWEGO SHOPS BE OPENED

Oswego, April 26. — F. A. Lender-  
man, superintendent of the motive  
power of the New York Central com-  
pany here, left for New York tonight  
bearing a petition from shopmen re-  
questing the reopening of the local  
shops, which have been closed more  
than a year. The men agreed to re-  
turn to work on a piece work basis  
on rates in effect in December, 1917,  
plus 25 per cent.

# SIMMONS RAILS AGAINST TARIFF

Pending Measure Fraught With  
Great Danger to People of  
Country, He Tells Senate

## PREDICTS PASSAGE

Many Senators Seek Concessions  
for Their Special Interests and  
Will Forego Opposition

Washington, April 26. — Summing  
up a three hours' attack on the pend-  
ing tariff bill today in the senate, Sen-  
ator Simmons, Democrat of North  
Carolina, declared it was his "deliber-  
ate judgment" that the measure was  
"fraught with more danger to the peo-  
ple of the country and the institutions  
under which they have lived than any  
bill which ever crossed the thresh-  
old of this chamber."

The senator said he supposed the  
measure would be passed, not because  
it met the judgment of the senate, but  
because a considerable part of the  
majority of the senate "are willing  
to forego their opposition to what they  
regard as unjust imposition upon  
the people in order to get conces-  
sions for those in whom they are es-  
pecially interested."

Senator King, Democrat of Utah,  
continued his analysis of the chemical  
schedule lesson yesterday. He charged  
that the provisions of the bill mak-  
ing it unlawful to import dyes in con-  
tainers or packages bearing the trade  
mark of dyes registered in the United  
States was a "joker" added to the  
measure in the interests of the so-called  
chemical foundation of which  
practically all dye manufacturers in  
this country are members.

## Senator Simmons' Attack.

"A careful study of this bill in con-  
nection with existing conditions here  
and abroad," Senator Simmons said,  
"makes it perfectly clear that it was  
framed with a view to maintaining  
present prices and to enable the indus-  
tries which it protects to further ad-  
vance those excessively high prices  
without incurring the risk of foreign  
competition."

"A comparison of the rates impos-  
ed on this bill with those of the  
Payne-Aldrich bill will show that  
upon the basis of the price of prod-  
ucts during the two periods—the only  
basis of fair comparison of equivalent  
values—the proposed rates aver-  
aged to present import prices aver-  
age from 40 to 50 per cent higher  
than the average Payne-Aldrich rates  
for any year during the life of the  
act."

"I think there can be no doubt," he  
added, "that the potential rates of  
this bill are almost, if not quite, dou-  
ble those of the present law."

## Violates Every Principle.

Senator Simmons asserted that the  
"rule" manifestly adopted and follow-  
ed by the finance committee in fix-  
ing rates, "violates every theory or  
principle of protection heretofore ad-  
vanced or proclaimed by the cham-  
pions of protection, including the Re-  
publican party in this country and  
with the super-added rate-making  
powers conferred upon the President,  
makes rate-fixing almost as much a  
matter of political and personal  
patronage as the distribution of fed-  
eral offices."

Senator Simmons said the bill was  
"based primarily on three erroneous  
assumptions of fact: That present  
importations are excessive and a men-  
ace to the business of the country."  
"That the home selling price and  
the export selling price of foreign  
merchandise is so much lower than  
the selling price of like or comparable  
domestic products that much higher  
rates of duty than those of the pres-  
ent law are needed to bring about fair  
and competitive conditions."

"That the export price of foreign  
merchandise as found in the invest-  
ment and reports of the Reynolds  
commission based upon such selling  
prices in August, 1921, has not chang-  
ed since that time and are the same  
today."

## MARSHAL JOFFRE REVIEWS DIVISION OF STATE TROOPS

New York, April 26. — New York  
turned back toward France for about  
twenty minutes today when a provi-  
sional division of state troops swung  
in review along 59th street before  
Marshal Joffre of France.

The marshal stood in a balcony of  
the Army and Navy club surrounded  
by his staff and the staff of Adm-  
iral Jones, commander of the Atlantic fleet,  
while the 2,500 men in full war equip-  
ment with bayonets fixed, gave the  
street a martial appearance it had not  
seen for many months.

The marshal declared it was the  
highest and best spot of his week in  
the city and his staff echoed the sen-  
timent. The crowd on the street, ap-  
parently feeling the same way about it,  
cheered as they did when the troops  
came home from France.

## 32 LIVES LOST WHEN FRENCH SHIP FOUNDERS

Brest, France, April 26. — Thirty-  
two lives were lost when the French  
steamer, Deputy Albert Thillaudier, a  
vessel of 3,000 tons bound for Rotter-  
dam from Brest, with a cargo of coal  
foundered last night off the northern  
coast of Brittany during a violent  
storm. The captain of the ship, the  
sole survivor, was picked up today by  
the Greek steamer Pelagia.

## PENNSYLVANIA DIVIDEND.

Philadelphia, April 26. — The board  
of directors of the Pennsylvania rail-  
road today voted a regular quarterly  
dividend of one per cent, payable May  
31, to stock as of register May 1.

# IRISH PEACE THREATENED BY NEW BREAK

Dublin Government Refuses to Co-  
operate With Belfast in Rail-  
way Investigation

## COLLINS AROUSED

Wires Premier Craig Ulster's Atti-  
tude Regarding Prisoners Is  
Most Unsatisfactory

(By the Associated Press.)  
Belfast, April 26. — A breach be-  
tween the Dublin and Belfast govern-  
ments, which Ulster political quarters  
declare may also entail a rupture of  
the London agreement, is indicated by  
a statement issued by the provisional  
government in Dublin this afternoon  
announcing that it is unable to co-  
operate with the Belfast government in  
an inquiry into the Irish railways.

The seriousness of the general situ-  
ation between the two governments is  
indicated by a telegram from Michael  
Collins, head of the provisional gov-  
ernment, to Sir James Craig, the Ul-  
ster premier.

"All here are agreed it is impossible  
to make any further progress until the  
vital clauses of the London agree-  
ment are fulfilled by you," said Col-  
lins in this telegram dated April 22.  
"They consider your attitude regard-  
ing prisoners as most unsatisfactory  
and entirely out of accord with the let-  
ter and spirit of the agreement and  
your failure to agree to investigation  
of cases under clauses as most un-  
reasonable."

(Clause V of the London agreement  
of March 20 provided for establish-  
ment of a committee in Belfast with  
equal members of Catholics and  
Protestants, to hear and investigate  
complaints of intimidation, outrages,  
etc.)

"The statement issued in Dublin by  
the provisional government today reads:  
"It was originally intended that the  
commission of inquiry into the Irish  
railways should be joint, as between  
the provisional government and the  
Belfast parliament, but owing to the  
failure of the Belfast parliament to  
carry out its agreement and under-  
takings, the provisional government  
has decided that it is quite useless to  
endeavor to act in cooperation with it."

"Consequently the commission of  
inquiry into the railways had been  
directed to open its public proceed-  
ings in Dublin on Tuesday next."

## Irish Republican slain.

London, April 26. — Acting Com-  
mandant Michael S. O'Neill of the  
third Cork brigade of the Irish Re-  
publican army was shot and killed  
near Bandon, County Cork, today, the  
Central News reports.

Commandant O'Neill was accom-  
panying other officers and officials  
on duty to a farmhouse some distance  
from the town and was fired at point-  
blank without warning. A member of  
the farmer's family was arrested.

## MISSING SEAPLANE FINALLY RESCUED

Six Persons Aboard Reported Safe;  
Naval Seaplane Accompanying

San Francisco, April 26. — The sea-  
plane Santa Maria, missing since 5  
o'clock Monday morning, when it left  
Key West for Nassau, was found  
shortly before noon today at Williams  
Island, two miles south of Andros  
Island in the Bahama group, by the  
naval seaplane F-5-L, one of a flotilla  
of five naval planes which arrived in  
Miami Sunday enroute from Guanta-  
namo Bay, Cuba, to Hampton roads.

All on board the Santa Maria were  
reported safe and well. The three  
passengers had gone on to Nassau by  
a small boat, while the two pilots  
and mechanic remained in the plane.

Washington, April 26. — A dispatch  
from the commandant of the naval  
station at Key West, received at the  
navy department this afternoon, said  
the missing commercial seaplane,  
Santa Maria was proceeding to Miami  
in company with Naval Seaplane S-  
L, which located and gave aid to  
passenger craft.

## NEWSPAPER RIVALRY SEEN AS MOTIVE OF NEW TAYLOR CLUE

San Francisco, April 26. — Rivalry  
between employees of newspapers in  
Hilo, territory of Hawaii, was advanced  
today by Homer C. Connette, former  
Rockwell, N. Y., newspaper man, as  
the reason for the authorship of a  
mysterious letter which purported to  
link him with the murder in Los An-  
geles, February 1, of William Desmond  
Taylor, motion picture director.

Connette characterized the letter as  
a "plan by a rival newspaper man."  
"I never saw this letter," he said,  
"until it was shown to me yesterday.  
The letter was typewritten and un-  
signed and apparently was built upon  
things that I had said in a moment of  
levity in the presence of a newspaper  
rival in Hilo. I know absolutely noth-  
ing about the Taylor murder other  
than what is common knowledge."

## SNYDER A TOP-NOTCHER

Several League Teams Want Man Signed Up Tentatively for Oneonta Ball Team — Success of Season Depends Upon Next Few Days' Results in Membership Drive.  
"Jeff" Snyder, who played on the Philadelphia Navy Yard team during the war, is another player whose option will be taken up by Manager Al Bridwell on May 1 if the drive for a membership of 750 in the Athletic association is successfully concluded by Saturday night. The report last night showed that 304 names had been added to the rolls this week, making a total membership to date of 504 and leaving 246 to be secured within the next three days.  
Snyder, whose four years' experience as a ball tosser has won him the reputation of being an all-around player, will be placed in the position on the Oneonta nine, if he is signed, where Manager Bridwell thinks he is most needed. His nickname of "Jeff" was acquired by the rolls this week, rather than his size, as his photograph shows him to be a stockily built youngster, and not too young at that.  
Rocky Mount of the Virginia league, a team Bridwell formerly managed, had Snyder's services in 1920, and last year he went with Martinsburg of the Blue Ridge league, being farm-laid there by the Detroit Americans. Bridwell, managing Spartansburg of the South Atlantic league last year, also had a bid on Snyder's services but Judge Landis, as the czar of baseball, awarded the player to Martinsburg. Jeff's leaning towards Bridwell before the case was finally settled was the cause for Martinsburg trading him to Hanover of the Blue Ridge league during the season. Before playing with the famous Philadelphia Navy Yard team during the war, Snyder made his debut in baseball with the White Auto's in Cleveland and the Homestead Steel in Pittsburgh, which is home for "Jeff."

That Oneonta will be lucky to get Snyder's services, through the influence he admires Bridwell's personality has over him, is proved by the offers the all-around player receives this season from Waynesboro and Hanover of the Blue Ridge league and Kitchener of the Michigan Ontario league.

## STOCK MARKET HAS REACTIONARY TONE

Prices Hesitant for Most of Day, Developing Heaviness in the Final Hour

New York, April 26. — The reactionary tone of today's financial market disclosed increased caution on the part of the professional interests and the public. Price movements were hesitant for the greater part of the session, developing heaviness in the final hour.

Early strength among domestic oils, which contributed enormously to the day's large turnover at extreme gains of one to four points, together with steady buying of secondary or independent steels, was matched by heaviness in foreign oils, the motors and other specialties, the general transportation list, and local utilities.

Selling assumed its widest proportions toward the close, when offerings of United States Steel, Studebaker, Mexican Petroleum, General Motors, Kelly-Springfield, United States Rubber, American Sugar and the cheaper rails effected net losses of one to almost three per cent.

Standard Oils of New Jersey and California, Associated, Cosden, California Petroleum and Pacific, Houston and Sinclair oils forfeited much and in some instances all of their substantial advances, and little was left of the early improvement shown by steels.

There were no developments to account for the late reaction, but commission houses and the conservative element were on record as favoring a temporary halt in the long-sustained bull market.

Among leaders, some disappointment was expressed at the showing made by United States Steel in the quarterly report. Money conditions were easier than at any previous session of the week, all call loans being made at the fixed rate of 3 per cent.

Foreign issues were the only noteworthy exceptions to the further firmness shown by the bond market, although in that group several substantial advances were noted.

The market, as a whole, however, despite the large and diversified turnover, gave occasional signs that the many recent underwritings had created a temporary state of indigestion. Liberty issues were barely steady in the early dealings, but strengthened when the third and fourth 4's again rose to par, the latter including the sale of a block of three million.

## CORN PAYS FOR NITROGEN

More Profit From Plowing Under Clover Sod or Manure Than Mixed Fertilizers.

New York farmers have found that profit in growing corn comes from using farm-produced nitrogen and organic matter. Plowing under clover sod or manure and supplementing it with acid phosphate results in higher profits than the use of mixed fertilizers of either high or low analysis, according to the state college of agriculture at Ithaca.

Corn is a heavy feeder on nitrogen or ammonia, but fertilizer nitrogen is too expensive to be used to any great extent. There is no better means of supplying these nitrogen needs than by plowing under clover or alfalfa sod. When this is done, the grain crop gets the immediate benefit of the nitrogen which these legumes have obtained from the air and left in the soil. As a result, the corn develops that dark green color which indicates abundance of nitrogen.

**Manure Also Valuable.**  
Next to a good sod plowed for corn, farm manure is considered essential on most New York farms. It contains 10 pounds of nitrogen to the ton, which is equivalent to 12 pounds of ammonia. When broadcasted at the rate of 8 to 10 tons to the acre and plowed into the soil, it goes a long way to meet the nitrogen needs of the crop. The available nitrogen of manure is contained largely in the liquid; consequently as a corn fertilizer its value is materially influenced by the urine content.

The necessary additional phosphatic fertilizer is obtained through the application of from 200 to 400 pounds of acid phosphate or bone meal. If rock phosphate is used, it is plowed into the soil with the manure or sod. Only under exceptional soil conditions is potash also needed for corn.

## BAIRD QUITS DIAMOND

Rejects Flattering Offers to Play This Season and Will Remain in Oil Business.

(From Milford Correspondent)  
George Baird, who has spent his summers in Milford for the past three years, and who for two seasons was a member of the fast Oneonta baseball team, was recently made a very flattering offer by the Seattle club of the Pacific Coast league. Mr. Baird has received several good offers from baseball managers, but has turned them all down and will continue in the oil business in which he has been engaged the past three years. He is now general manager of the Paragon Oil and Refining company for the state of Kentucky, with offices at Bowling Green. This is one of the most promising and most prosperous of the junior companies operating in that state.

### SCHUYLER LAKE LETTER.

Interesting Meeting of Parent-Teacher Association Well Attended.

Schuyler Lake, April 26.—The last regular meeting of the Parent-Teacher association, held at the school building, was well attended and provided both interesting and profitable. Miss Loudon accompanied Messrs. Smith and Krum, whose slides and talks were greatly enjoyed. Mr. Krum is a particularly lively and pleasant speaker and anyone at all interested in poultry, who wasn't there, missed a rare treat. The illustrations for the old familiar songs were beautiful. At the next meeting, on May 11, there will be a talk on taxation by one who has made a special study of that subject.

### Ladies' Aid Society.

There will be a meeting of the Ladies' Aid society of the Universalist church at the home of Mrs. Fied Chamberlain Thursday afternoon of this week.

## NOW DO MY WORK WITHEASE

Because Lydia E. Pinkham's Vegetable Compound Restored My Health

Hornell, N. Y.—"I was in bad health but there didn't seem to be any one thing the matter with me. I was tired all over and it was an effort for me to move. I was irritable and could not sleep nights and had trouble with my bowels and at my periods. It seemed that nearly every one around me knew of my medicine and wanted me to try it, so at last I took Lydia E. Pinkham's Vegetable Compound Tablets and Lydia E. Pinkham's Blood Medicine and improved every day. I do all my own work now except the washing and do it with ease. I can accomplish as much in a day now as it would have taken me a week to do last winter and I try to get every one I know to take your medicine to help them up. You are welcome to use this letter as a testimonial if you like."—Mrs. CHAS. BAKER, 21 Spencer Ave., Hornell, N. Y.

In almost every neighborhood there are women who know of the value of Lydia E. Pinkham's Vegetable Compound. They know because they have taken it and have been helped. Why don't you give it a trial?

Each play was very well attended and the profits went to the Masonic lodge.

### Successful Concert.

The concert given by the Community Concert company at Mulford's hall on Monday night was very much enjoyed by all present.

A violin solo was given by Louis D'Imperio and a violin duet by Grace Roy and Monte Cone. A saxophone solo was given by Frank Davy. Miss Adah Butler gave several vocal solos. These with various selections by the entire orchestra made a very pleasing program.

### Change in Pastorate.

Rev. Wilber C. Dodge has moved his family to Oneonta, where he has been placed in charge of the Elm Park Methodist church. Rev. B. W. Dix of Cooperstown has moved into the Methodist parsonage here.

Miss Pauline Dodge will remain here to finish her high school and training class.

### Local Notes.

School reopened today for the last term this school year.—Miss Fern E. Scribner, who is doing social service work in the Italian district in Scranton, Pa., spent her Easter vacation at the home of her parents, Mr. and Mrs. J. C. Scribner.—Mr. and Mrs. Samuel Hodges are returning Friday from Clearwater, Florida, where they have been spending the winter.—Mr. and Mrs. Frederick Sherman are returning from Richmond, Virginia, this week, where they have spent the winter.—The Presbyterian Brotherhood held their regular monthly meeting at the Community house Friday night. The usual good things were enjoyed.—Albert Stebbins of Davenport Center has moved to Church street.—Hon. and Mrs. Charles C. Flaesch returned from Atlantic City on Sunday, where they had been spending the week.—Miss Nina Fisk has finished her course in the Syracuse Business college and has accepted a position as stenographer at the Dairyman's league plant.—Hon. Charles C. Flaesch attended the Antler's banquet at Sidney in the DeCumber hotel Monday night. He was the speaker of the evening.

### Westford Entertainment Friday.

Westford, April 26.—Richmondville talent will present a play in the Westford Presbyterian church Friday evening under the auspices of the Ladies' Aid society. Eighteen characters are in the play, which promises to be a rare treat. The public is invited.

## FILLED MILK TABOO.

Governor Miller has signed the measure prohibiting the manufacture or sale of filled milk in New York state.

Filled milk is a product made of milk from which the butterfat has been removed. The chief product of New York state farmers in an industry valued at \$200,000,000 annually is taken from milk and a cheap vegetable product produced in foreign countries is substituted.

Instead of an active, health bearing food, butterfat, buyers of filled milk are given a neutral commodity, vegetable oil. Bogue milk, even if it does not injure health, is a fraud—for it has the semblance of milk and quite generally is sold at retail as such.

Enactment of this bill into law is a great victory for New York state farmers. It gives protection to their industry, which is at this time vitally needed. In 1920 more than 85,000,000 pounds of filled milk were manufactured, decreasing in that amount the legitimate market for milk.

The entire production of 40,000 cows lost a market because of the use of vegetable oils in filled milk.

## PHYSICAL CULTURE WEEK

There have been a great many "weeks" already the present year, and also a thoroughly sufficient number of "days" in which various movements of the uplift sort have been prompted. Without exception they have been good purposes, and if there has been any reason for criticism it has been because there have been so many of them that it has not been possible in their multiplicity to keep public enthusiasm up to the expected high level.

One of those yet to come, and it is certainly a worth-while proposition, is Physical Culture week, which begins on Monday next and will include the following Monday, May 8. Mayor Hyatt of New York, commenting on the proposition, says that "a campaign which seeks to promote clean living and higher ideals is entitled to universal endorsement," and in this last at least his views are to be commended. "A clean mind in a clean body" is a Latin saying a couple of thousand years old or thereabouts but it is as true now as it was when first uttered; and as the sound mind and body of the earlier day gave to Rome its greatness, so it is a requisite of this generation if America is to rise to its ideal of man and womanhood.

## SOME FISHERMAN.

Herbert Bernard Captures Two 14-Inch Trout at One Cast.

Herbert Bernard of Schenectady, who occasionally departs from his tireless quest for life insurance prospects to spend a few hours angling for equally wily trout in Elk creek and other nearby streams, had an experience on Monday, while along the stream named, that he will probably not duplicate during the remainder of his life. Late in the afternoon the trout commenced to rise quite lively to the fly, and at the first cast in a favorite hole there was some commotion and it required but an instant for the man who has made Mutual Life synonymous, in this locality at least, with protection for wife and children, to recognize that he had two trout hooked and trout of no mean size. Adroit as he is with the rod and reel, it required all of his dexterity to land both with light rod. It was done and singularly both trout measured 14 inches in length and were beauties. Next!

## In Surrogate's Court.

At the regular term of surrogate's court here on Tuesday the will of Hans Anderson, late of Oneonta, was admitted to probate. Mrs. Anderson is named as executrix.

The will of the late Wesley Gardner, late of Laurens, was admitted to probate. W. Lewis Bolton of Oneonta is named as executor and the estate is left to the widow.

Monte Cone and his attorney, L. M. Cowles, both of Unadilla, were before the surrogate on the final accounting in the estate of the grandmother of Mr. Cone, the estate amounting to about \$150,000. The accounts were passed and the final decrees entered. Proceedings for the probate of the will of the late Martin D. Dyer, late of Oneonta, was adjourned for two weeks.

## Information Desired.

In order to secure accuracy and a complete listing of all fraternal and social organizations in the city in the new city directory which The Star is going to publish, with the generous aid of all such organizations kindly forward to The Star office addressed to the editor of City Directory, the correct name of their organizations with the list of officers? This will facilitate the task which is undertaken not for the small profit if any, that can be made from the project, but because that such a book is needed and because it is deemed advisable by the most interested that it be compiled and edited by one familiar with the city, prompt compliance with the request will be much appreciated.

## Coming After His Car.

Archibald A. Bernard, editor and publisher of a successful newspaper at Coudersport, Pa., and also of a general magazine not unlike the Philadelphia Evening Bulletin, has been made famous, is expected to reach Schenectady tomorrow to visit his parents, Mr. and Mrs. Herbert Bernard. Mrs. Bernard will accompany him and on their return they will drive home their touring car, which became snowbound at Schenectady early last winter when they made a short visit there, and has since been in storage there.

## COMMENTS OF THE PRESS.

### Apathy of Voting Public.

The civic apathy of the American citizen may some day be placed before the adept in psycho-analysis for diagnosis and prognosis. The special election in Detroit recently to decide for or against municipal trolleys, in which the voters were known to be intensely interested, seems to make a plea for special analysis. In this special election to settle the fate of municipal ownership in Detroit only 29 per cent of "a normal vote" was cast—67,000 in round numbers, 55,000 for and 12,000 against municipal ownership. — [Pittsburgh Dispatch.]

### He Remembers Lafayette.

Thomas Joseph West, uncle of President MacMonnies, celebrated in Wheatley Hills his 100th birthday, and recalls seeing Lafayette. He also defends "civic virtue" as might have been anticipated. Mr. West, we think, is still getting much satisfaction out of life. — [Brooklyn Eagle.]

### Mr. Depew's Formula.

Mr. Chauncey Depew, at the ripe and reflective age of eighty-eight, repeats Horace's recipe for a happy life. "Practice moderation in all things," he says. Then he adds an ingredient foreign to the social philosophy of the Roman poet: "Have faith in your fellow man." In other words, moderation must be somewhat tempered with enthusiasm if it is not to become indifference. Like the moderation of the Luddite, the alternative is cynicism, which is usually enthusiasm gone sour. — [Philadelphia Inquirer.]

### Many Lives Saved.

A comparison of fatalities on the railroads of the country, made possible by figures compiled by the Interstate Commerce commission, is surprising. In 1907 there were 829 fatalities and in 1921 about 6,000; in fourteen years a reduction of about one-half, though population and traffic have increased. In 1907, 4,534 employees and 610 passengers were killed; in 1921, 1,086 employees and 205 passengers. Treasurers make up the larger number of fatalities. — [Exchange.]

### The Very Worst Time.

Why is this the very worst time to draft and pass a new permanent tariff? The answer is simple. A permanent tariff should respond to relatively stable conditions in trade and industry, both at home and abroad. But everyone knows that world trade conditions are abnormal—almost chaotic—and that the process of post-war readjustment is still far from finished in this country. Foreign exchange values and currencies are deranged. Foreign prices are variable. There are no fixed standards of production elsewhere to which American fixed standards of production may be intelligently related by a tariff differential. — [New York Tribune.]

### A Ten Year Truce for Europe.

Realizing that Europe's first great need is peace, free from the malign spirit of lurking hatred, Prime Minister Lloyd George is striving hard for ten year truce to be agreed upon by the thirty-four nations represented at the Genoa conference. The treaty under which this great boon would be secured, provides no penalties for the signatories. It is in the nature of a solemn voluntary pact in which they pledge one another that for the next ten years they will not resort to aggression. — [Scranton Republican.]

### Against Forest Fires.

About 15 per cent of the forest fires are caused by railroads; about the same number are caused by the careless burning of brush; incendiarism is a close third, and pleasure seekers come fourth. Curiously enough, lightning is a cause of forest fires, the forest service estimating the proportion at 10 per cent. This estimate, however, cannot apply to the Adirondacks, where the oldest inhabitants never saw such an incident. Twice as many acres are burned as are cut each year but this does not mean twice the amount of timber is burned. — [Utica Observer.]

### More Astonished.

Mr. Dempsey astonished Paris in 1920. He would have astonished it more a few years ago in khaki. — [New York Tribune.]

### The Surest Way.

About the surest way to become miserable and stay that way is to try to be pleasant at all times, as the books advise. — [Cincinnati Enquirer.]

### Tidings From Tampa.

Sounds funny for the northern papers to be talking about spring, between snowstorms, while we are in the full tide of summer. — [Tampa Times.]

### They Carry the Money.

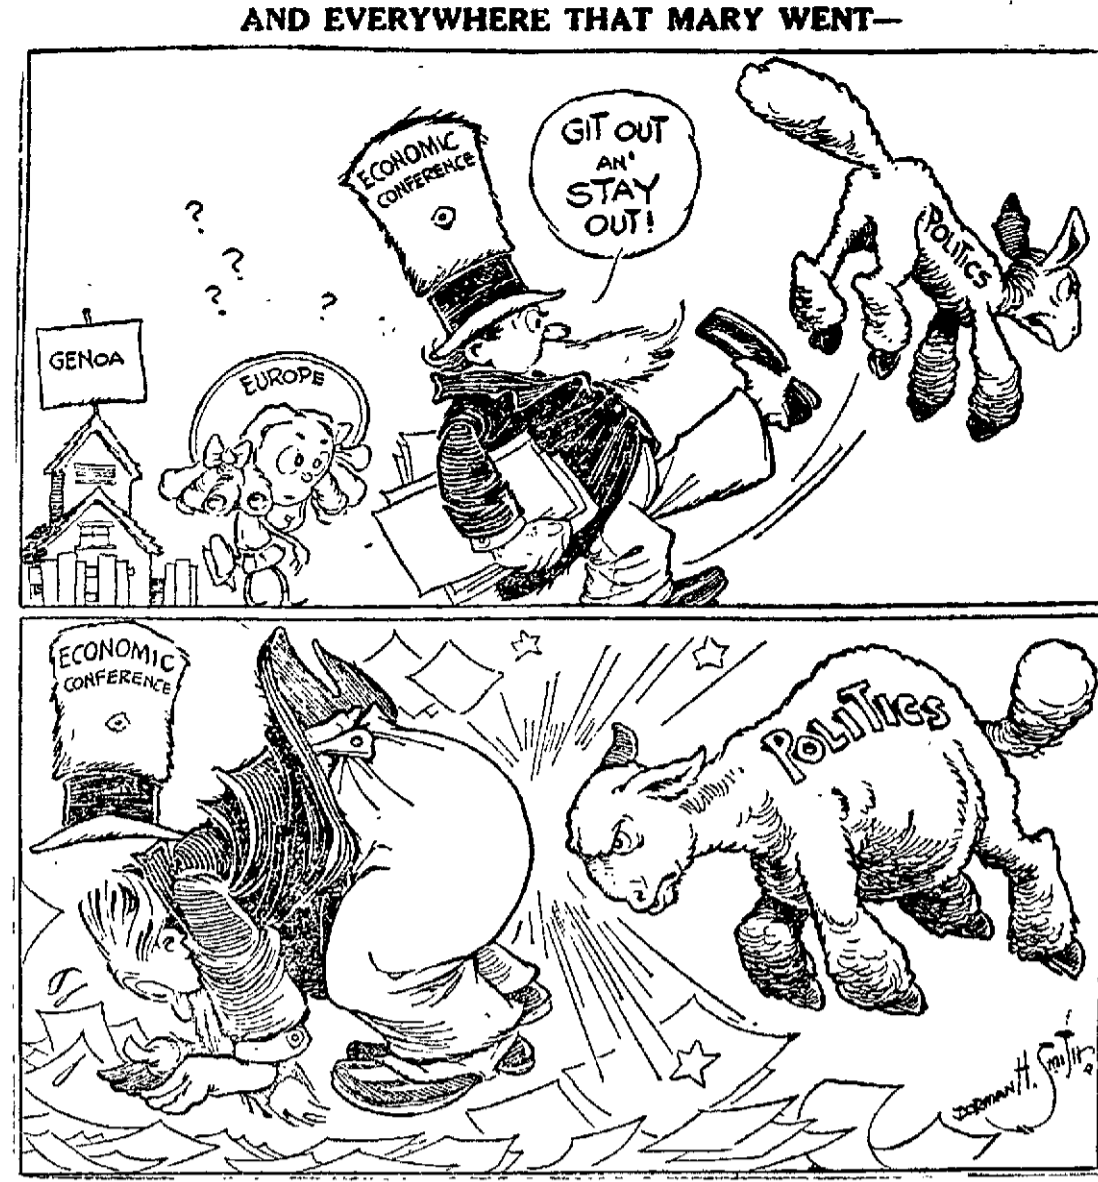

Eight Nebraska counties now have women treasurers and if they run true to form, there are eight counties that will get their money's worth or know the reason why. — [Cleveland Plain Dealer.]

### The Lloyd George Way.

Lloyd George seems to have found effective means to avert ruin in the conference. When any of the delegates become obstreperous, he threatens to "bust up" the whole blamed conference. — [Albany Journal.]

### Alternative Punishment.

A city court judge has ordered a man to get married before June 15 or go to jail, which looks like he

## CALF CLUB CONFERENCE

Departments and Organizations Represented at Syracuse Meeting.

At the request of E. R. Zimmer, secretary of the New York State Holstein-Friesian association, a small group gathered at his office in Syracuse on Thursday, April 26th, for conference. The departments and organizations represented were the State College by State Club Leader W. J. Wright and H. A. Hopper of the Department of Animal Husbandry; the State Department of Education by Ray P. Snyder; the Holstein-Friesian association by Mr. Zimmer and E. J. Cooper, Calf Club specialist from the National association; County Agents were represented by Messrs. Wall and Davis of Onondaga and Cayuga counties and County Club Workers by Harry C. Chenango, O. B. Trowbridge of Oswego and Ralph Q. Smith of Otsego county.

Following a discussion of all phases of Calf Club Work for which the conference was called, as outlined and taken up by the various representatives present, some recommendations were drawn up. It seemed to be the general consensus of opinion that Calf Club Work should be fostered by individual breeders as to stimulating interest and getting boys and girls interested in raising purebred calves. The County Breeders' association should further cooperate as to carrying on Calf Club Work by committees for assisting County Club agent and individuals wanting calves, to offer prizes and awards and help in the local leadership of Calf Projects.

The State association offered their services in cooperating with breeders and county organizations to help by locating calves, providing judges, working with organized county clubs such as the Otsego County Holstein club. The National association will provide ribbons and badges, Calf Club bulletins, prize money for State Fair work and a Junior Certificate of Membership in the association. In all, a very complete conference was held and many good things brought about in developing a closer relationship of working agencies for fostering Calf Club Work.

## Foreign Debts and the Bonus.

The proposal to link the bonus with the payment of the foreign debt makes plain to the soldier the obvious purpose is to make the soldier feel that they will be paid through the payment of the debt. But is ignores the probability that no adequate payment is likely to be made within sufficient time to fulfill the requirements of the measure. Its advocates pretend that they can pay cash by means of uncollected bills the value of which is disputed. — [New York Tribune.]

## TO LICENSE REAL ESTATE MEN

Provisions of New Law Effective October 1 Next Requiring Brokers and Salesmen to Take Out Licenses Outlined and Merits Explained.

The bill to license and regulate real estate brokers and salesmen in the city of the state, which was passed by the Legislature last week and is now Chapter 672 of the laws of 1922. It takes effect next October. H. H. Garfield, president of the State Association of Real Estate boards comments on the new law as follows: "This is a constructive measure, which will afford protection to the public in realty transactions as well as to the established, legitimate real estate broker and salesman. In the thirteen other states which have similar license laws, fraudulent practices, misrepresentations, and dishonesty in realty transactions have been reduced to a minimum. The law will also tend to elevate the business of real estate. It does not prevent owners from selling their own properties." "The enactment of this measure into law is due to the splendid cooperation of the twenty-six local real estate boards comprising the New York State Association of Real Estate boards.

The State association introduced and sponsored the license bill, and will cooperate with the State Tax commission in making the law effective. The important features of the real estate license law have been pointed out by Mr. Garfield to be as follows: The law takes effect October 1st, 1922, "on and after which date no person, partnership or corporation shall engage in or follow the business or occupation of, or hold himself or herself out, or act temporarily or otherwise, as a real estate broker or real estate salesman in this state, without first procuring a license therefor," from the State Tax Commission.

Application for licenses shall state: (a) name and residence address of applicant, including each member of a partnership and each officer of a corporation, (b) place of business, (c) business or occupation theretofore engaged in for a period of two years, (d) such further information as the State Tax commission may reasonably require to determine trustworthiness. Each licensed real estate broker shall maintain a definite place of business, which may be established in one's home. License fees are: First class cities, Brokers \$25, Salesmen \$5; Second Class cities, Brokers \$15, Salesmen \$5; All other cities, Brokers \$10; Salesmen \$2. Payable annually. One-half of the fees received by the State revert to the counties and cities from which collected.

## TO SPEAK ON HYGIENE

Mrs. Isobel Beyea, Expert in Social Hygiene, Will Address Local Organization on Friday.

Upon the invitation of Health Officer George W. Augustin Mrs. Isobel T. Beyea, registered nurse, will visit Oneonta on Friday to give a number of lectures to student bodies and other organizations on the relationship between hygiene and better citizenship. The entire program has not been completed but it is certain that Mrs. Beyea will speak to the High school, the grammar grades at the High school building, the Otsego County Nurses' association and possibly the Woman's club if it can be arranged.

Mrs. Beyea is a trained nurse who saw considerable service overseas with the American Expeditionary forces during the World war and is a woman of high professional attainments and a very fine speaker. Her services have been greatly in demand by Chambers of Commerce, Rotary clubs, Normal schools, and similar organizations which stand for municipal progress.

## LOCAL MENTION.

—Good work is being done on the dirt roads of Oneonta township, and soon these roads will be in fair condition for motoring.

—Fred M. Van Wie, the local authorized Chevrolet dealer, sold sedans yesterday to Lester A. Hopkins and James J. Cannon; touring cars to Robert J. Barnes and George Farmer.

—Mr. and Mrs. F. P. Hunt and Mr. and Mrs. R. W. Hunt yesterday removed from 6 Grove street to the house R. W. Hunt recently purchased at 32 Grand street where they are to reside.

—Moon sedans of the latest model and with all accessories and the finest upholstery and finish have been received by L. H. and C. D. Townsend and both are well pleased with their appearance and performance. Camp & Townsend have the agency.

—The Lane Electric shop has the distinction of having the first "radio window" in the city. Miniature antenna outfit is connected with a standard receiving set equipped with the necessary ground and batteries. The window display gives the novice a very good idea of just how simple a radio outfit is.

—The boulevard light at the corner of Broad and Market streets was dispelling the gloom last evening for the first time since it was put out of commission some time ago by a motorist who cut the corner too short and rammed the pole. The standard was broken off near the base and a new one had to be ordered, hence the delay.

—The grocers and butchers of the city will close their stores on Thursday afternoon from June 8 to September 18, it was decided at a meeting held last evening. This is in conformity with their custom established last year. Other members of the Merchants' association will close their stores daily from 5 p. m. from June 8 to September 18.

## BOOKHOUT BUYS OUT KARK.

Will Hereafter Conduct Undertaking Business Individually.

I. J. Bookhout, who three years since formed a partnership with A. C. Kark under the firm name of Bookhout & Kark and later established commodious and well appointed funeral parlors in the building of the Home Furnishing company on Dietz street and since enjoying a good patronage, has purchased the interest of his partner in the undertaking business and will hereafter conduct it individually, devoting himself assiduously to giving service and satisfaction.

The business of an old and well established undertaking firm in Saratoga Springs, which they purchased and which has since October last been managed by Mr. Kark, though owned and conducted by Bookhout & Kark, has in turn been taken over by Mr. Kark, who becomes the sole proprietor of that business. This seems the natural solution of the situation and is mutually satisfactory to both members of the firm.

## Meetings Today.

## BUILDING CODE FOR CITY

Needed Measure Being Prepared — State Law to Govern Construction of Places of Public Assembly — State Inspector Visits Local Theatres.

City officials are working on a building code to be presented to the Common Council in the hope that a suitable ordinance will be passed. Mayor C. C. Miller announced yesterday. The present regulations in force in regard to the construction of new buildings are held to be unsatisfactory and it is hoped that an ordinance will be passed which will go far toward solving this difficult problem.

Even if the city ordinance does not pass, the situation will be met in part by the legislative act just signed by Governor Miller which provides that after October 1 there will be a standard building code for places of public assembly which it will be the duty of municipalities to enforce. Under the law prospective builders of public buildings will be forced to submit plans and specifications to city officials for endorsement or rejection in accordance to how they comply with the state code. The law will also empower cities to make inspections to see whether or not the law is being complied with.

The state law will cover only such structures as will be used as places of public assembly, such as theatres, skating rinks, dance halls, etc. The law is intended to forestall danger of collapse or from fire.

At the request of Mayor Miller, A. A. Farrell, inspector for the state industrial commission, came to the city yesterday and made a thorough inspection of the theatres and other public buildings as well as of the plans for the two new theatres which are contemplated. He would give no intimation as to what his report would be but it is thought that he was satisfied for the most part at what he saw. Mr. Farrell conferred with the mayor in regard to the state code and the rules governing safety requirements in public buildings.

## TO IMPROVE GOLF COURSE

Upper Course at Country Club will be Lengthened and Made More Difficult — Work Has Already Started.

Work has been started at the Country club in the reconstruction of the upper section of the golf course which it is planned will add over 300 yards to the length of the course and make it one of the best nine hole courses in the state. Several men are at work under the supervision of Harry Simpson, the club's golf professional, and satisfactory progress is being made. It is expected that the work will take two months but the old course will be available during that period and no inconvenience should result to the club members.

The first tee will be located in front of the club house to the right and the first hole will be a 513 yard straightaway to the first green, which will be situated on the plot of ground recently purchased by the club. The second hole will be 550 yards long and the drive will be nearly at right angles to that for the first hole. The third tee will be in the far corner of the property and that third hole will be 124 yards long and will be difficult mashie over a ravine. Number three green will be located where number two green now is. Number four tee will be in the same location as the old number three tee and the fourth hole will be a dog leg hole 500 yards long. Number four green will be unchanged in position. No changes are contemplated in the lower course.

The course will be properly trapped but the contour of the ground is such that but few traps or bunkers will be necessary. Longer and more difficult than the old course, the reconstructed course will prove a real test to experts and will doubtless help to abate the "dubs" more efficient in the art.

## TO CLOSE A SUCCESSFUL RUN

Today Will Afford Last Opportunities to See "Over the Hill" at the Strand.

So many wanted to see "Over the Hill" at the Strand yesterday that it was necessary to turn away literally hundreds at the evening performances. Today will close the run and doubtless capacity crowds will again be the rule. In these days of carping criticism of motion pictures and everything pertaining thereto, it is gratifying to realize that there is at least one film production in the field in which the most zealous hunter for things to criticize can find little fault.

Blushes — there is not one in the entire subject. Crime suggestions — none, unless one who sees the picture feels a strong impulse to do violence to any man or woman caught in the act of abusing his or her aged mother.

## LOCAL HUMMOBILE AGENCY.

Popular Car Now Handled in Oneonta by Stevens Hardware Company.

Announcement was made yesterday that the Stevens Hardware company has taken the agency for Oneonta and vicinity for the widely known and popular Hummobile cars. These cars, which are manufactured by the Hummobile corporation of Detroit, are furnished in five sorts: Roadster, roadster-coupe, sedan, coupe and touring car, and the prices run from \$1,250 to \$1,935. The Stevens company now has a sedan on exhibition, and other styles will follow.

## Last Report.

The last report on (April 21st) from the largest granite manufacturing centers in the United States, Barre, Vermont, gives as follows: Four plants have started operation, eight granite cutters, ten apprentices, one polisher, one union machine tool sharpener at work.

This is a very discouraging outlook for this season's production of monumental work. Especially is this true for having anything made for Decoration Day. Anticipating the above conditions we made extensive provision for the Decoration Day trade by filling our show space with a choice lot of marble and granite monuments, markers, and headstones, all finished ready to letter. Thus we are prepared to supply a goodly number with memorial work and erect the same before Decoration Day.

Of course, there is a limit to the amount of lettering we can do between now and Memorial Day and can only be guided by the plan of "first come, first served." Dauley & Wright, 43 and 45 Broad street, Oneonta, N. Y. Advt. 1t.

## CITY HOUSE CLEANING

Mayor Miller Designates Next Week as Clean-Up Week — Boosters Will Have Charge of Details.

## PROCLAMATION.

Read: Think!! Act!!

Come on, let's put things in order. Our whole city can and should be made as clean and orderly as its cleanest home. Then we will have a safer, happier, healthier city.

Therefore, by virtue of the authority vested in me as mayor of the city of Oneonta, and with the hearty approval of many farseeing and zealous citizens, I hereby proclaim the week of May 1st to 6th as Clean-Up Week.

Away with the rubbish piles! Banish the plague spots! Clean up streets and alleys! Trim the hedges! Repair and paint every building that needs it! If too busy yourself, hire the man who's out of work! But get it done this next week! Spring is here! Now's the time!

We need this thorough cleaning and renovation. It is the sensible thing to do for the health, safety, thrift, pride, and happiness of all our people.

It is everybody's job. Every man, woman and child will be expected to help. Let there be no slackers.

(Signed) Clarence C. Miller, Mayor.

Clean-Up Week will be next week, May 1 to 6, by designation of Mayor C. C. Miller, whose proclamation is published above. With spring here, finally, efforts will be made to give concentrated attention to the task of lending a more attractive appearance to the residences and lawns throughout the city.

Preparations for Clean-Up Week were completed yesterday at conferences between the Board of Health, Health Officer George W. Angstadt, Chairman J. C. Hoyt of the Board of Public Works, and the committee of the Boosters which will have charge of the details. The latter committee is composed of Frank M. Hill, chairman; Charles J. VanDeusen, L. D. Brown, Herbert C. Gelman, Stuart Keenan, William H. Lunn and Ray F. Howland.

As in previous years, a wagon furnished by the Board of Public Works will go throughout each ward collecting refuse, except ashes, placed along the curb by householders. The wagon will make the rounds of the first ward Monday, the second ward Tuesday, the third ward on Wednesday, the fourth ward on Friday, and the sixth on Saturday.

## Nurses' Association Meets.

All members of the Otsego County Nurses' association are requested to meet at the Community house Friday afternoon at 2:30 o'clock, at which time they will be addressed by Mrs. Isabel Boyce. Any nurse or other friend of the association will be cordially welcomed.

For Sale — In nearby town on state road, a first class hardware business. Stock up-to-date. A real money maker. Opportunity of a life time. Reason for selling, ill health. Judd & Sherman. Advt. 2t.

Sweet peas. Special for Thursday, Friday and Saturday at fifty cents per bunch. Wyckoff's. Advt. 3t.

## ARBOR DAY AT THE NORMAL

Excellent Program Friday — Trees Dedicated to Commissioner Graves, Secretary Hughes and Chief Justice Taft.

Arbor Day will be observed at the Normal school on Friday, April 28. An excellent program has been prepared including the dedication of trees. The students and teachers take especial interest in the observance of Arbor Day, and the program for this spring promises to be most interesting.

The exercises will be held in the Assembly hall at 9 o'clock Friday morning. The program is as follows: Scripture Reading.

Music—"Vande Song" rendered by the school chorus.

Nature Quotations: Mr. Allen, Miss Furnum, Miss Gallagher, Miss Kirkpatrick and Miss Preston.

Rhythmic Interpretations by the Kindergarten: a. Interpretation Dance (placated from Sylvia Ballet), b. Old Nursery Rhymes—"London Town," c. Orchestra Selection—"Under the Double Eagle."

Recitation—"Looking Toward the Light," by Donald Hall.

Music—"The Wind," by the Primary Department.

Recitation—"On Arbor Day," by Helen Ryan.

Recitation—"Sir Robin," by Joe Balkman.

Music—"Bringing the Cattle Home," by the Primary Department.

Solo—"The Morning Wind," b. "The Cupboard," rendered by Miss Greene.

Recitation—"Spring's Call," by Donald Moore.

Recitation—"Birds," by Philip Potter.

Music—"a. Barcarolle, b. Lippa's Song, c. April Showers," by Melvin Ivy.

Oration—"The Mission of Trees," by Miss Ethel Downing.

Song—"America."

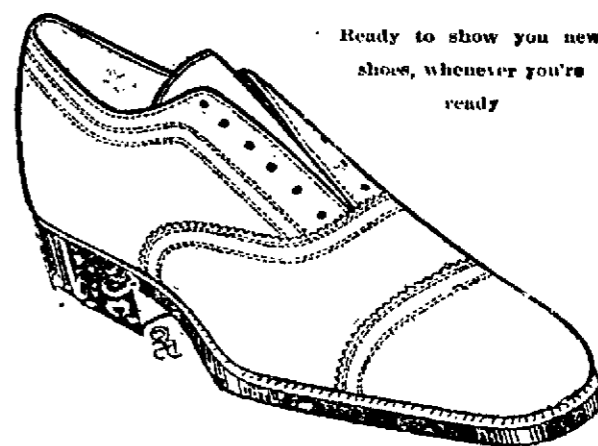

At the close of the exercises in the Assembly hall, trees will be dedicated to Commissioner Graves, Secretary Hughes and Chief Justice Taft. The following are the speakers: Miss Coates, Miss Pegnum and Miss Petrol. The planting of trees recalls the first Arbor Day observed at the Normal, thirty-two years ago, at which time maples were set in honor of Hon. A. S. Draper, at that time State Commissioner of Education, and of Hon. J. B. Arnold and Wm. H. Morris, both members of the local board and now all deceased. The exercises were held on Friday, May 2, 1890, at a time when the state law providing for compulsory observance of Arbor Day was but two years old. One of the interesting features of the program was the nomination for the state flower, made by five pupils who presented the respective merits of the wild rose, dandelion, daisy, buttercup and golden rod. Many trees were set that year, and it was estimated that over four hundred trees were planted in Oneonta in observance of Arbor Day, half of that number being in the old Willard park on Park avenue.

#### DEATHS

##### Frank Borden.

Frank Borden of 15 Kearney street this city, who has been in failing health for some time past, died last evening. Funeral arrangements and further details of the life of the deceased will be published in Friday's issue.

##### Mrs. Thomas F. Reidy.

Word was received in the city last evening of the death yesterday at East Stroudsburg of Mrs. Thomas F. Reidy of 84 Elm street, this city. Mrs. Reidy had been in poor health for some time and last month she and Mr. Reidy went to East Stroudsburg to reside for some time with her sister, Mrs. C. J. Scully. Further particulars were not available last evening but will be given in a subsequent issue.

##### "Y" Drive Launched.

The workers for the membership drive of the Boys' department of the Y. M. C. A. met Wednesday evening to listen to addresses by Secretaries Lange and Smith and the commanders of the three divisions into which the workers have been divided. The meeting was informal and the social hour put the boys in the proper "member-getting" mood for the week's work. The drive is to secure the 125 members that are needed to make the boys' department an active organization. Not the least important feature of the evening's work was the attention given to the "eas."

##### Bairds Expected Home Today.

Mr. and Mrs. George B. Baird, who have been spending the past three months on the Pacific coast, are expected to return this evening to their home in Oneonta. The outing has been most pleasantly passed, most of it in Los Angeles and vicinity, and the past month touring California by auto; but they will no doubt be as glad to see Oneonta once more as their friends will be to greet them. On their way east they stopped off for a brief sojourn with friends in Chicago.

Funeral of Mrs. Austin Kouse. The funeral of Mrs. Austin Kouse, whose death at the family home at Oneonta was noticed in The Star of Tuesday, was held from the Packer undertaking rooms on Broad street yesterday afternoon at 2 o'clock. The services were conducted by Rev. Dr. Charles S. Pendleton of the Main street Baptist church and were attended by numerous neighbors and friends from the vicinity of Mrs. Kouse's late home. The hearers were neighbors, R. L. Georgia, Frank Slavson, Frank Kouse and Lee O'Shaw. Burial was in the Plains cemetery.

An error was made in the death notice, the birthplace of the deceased having been in Stephentown, Sullivan county, though the deceased removed to New York city when quite young, and from that city to Oneonta and hence to Oneonta.

#### OBITUARY

##### Mrs. Henry Shuttles.

Mrs. Elizabeth Ferguson Shuttles, wife of Henry Shuttles, passed peacefully away at the family home at 374 Chestnut street, Tuesday evening at 7 o'clock after a week's illness from bronchial pneumonia.

Mrs. Shuttles was the daughter of James and Betty Ferguson and was born at Shavertown, March 3, 1840, and has spent her entire life in Otego and Delaware counties. She was united in marriage with Mr. Shuttles in 1861 and their married life has been passed at Otego, Walton, and Oneonta, they having resided at Walton for about thirty years prior to their coming to Oneonta for the second residence here nearly nine years ago.

Surviving her are the husband and the following children: Mrs. Charles J. Jenks, Mrs. Rose E. Hubbell, Mrs. William McCall and Maxville Shuttles of Oneonta and Mrs. Cyrus H. Budine of Walton and one sister, Mrs. William Daniels of Milford. She leaves also 16 grandchildren and seven great grandchildren.

Mrs. Shuttles was one of the early members of the Elm Park Methodist Episcopal church, in which she has taken a lively interest and been a willing and cheerful worker, always manifesting a sweet and cheerful spirit in her relations with church and other associations.

The funeral services will be held on Friday with a prayer service for the family at the late residence at 12:15 o'clock and the more extended services at the Elm Park church at 12:30 o'clock. Rev. J. C. Johnson, former pastor of that church will preach the funeral sermon and he will be assisted in the services by Rev. Wilbur C. Dodge, the present pastor. Interment will be in the Plains cemetery.

##### W. C. T. U. Meets.

The Woman's Christian Temperance union held their regular meeting at the Community house Wednesday afternoon at 2:30. The meeting was opened by singing "Our Native Land." The president, Mrs. Frisbee, announced the topic, "Is Beer Medicine?" The discussion was given by Mrs. VanLeuven of Maryland who quoted the statements of well known physicians to the effect that beer not only is not a medicine but is absolutely detrimental. Mrs. Lulu Walker led in prayer. At the regular business meeting the matter of posters for use in the schools of the city were discussed.

##### Births.

A son, was born, Thursday, April 13, at the Fox Memorial hospital to Mr. and Mrs. George Wright, 18 Fifth street.

#### WORK TO START IN MAY

Contract Will Soon Be Let for Construction of Schine Theatre in Oneonta Hotel Building.

Work on the motion picture theatre which the Schine Theatrical corporation will construct in the Oneonta hotel building will be started about the middle of May, according to General Manager J. M. Schine, who was in the city yesterday on business connected with the Strand and with the new theatre proposition. As soon as certain details in the plans are worked out, bids for the contract will be asked. Mr. Schine stated that local contractors will be given every opportunity to bid for the work.

The plans, which were examined by a Star representative yesterday, call for a theatre modeled after the beautiful Cameo theatre in New York city. It is expected that fully \$50,000 will be expended in turning the present hotel dining room into a theatre beyond compare in respect to beauty and convenience. The drawings, which are in color, show every detail of the construction and decorations. The walls will be wainscotted with marble. An unusual feature will be the lighting system. Powerful lights will be installed behind decorative panels on the walls and will be so arranged that the theatre can be instantly flooded with lights of various soft shades. Unique illuminative effects can be obtained in this way.

#### OBITUARY

##### Mrs. Edna F. Tobey.

East Meredith, April 26.—Mrs. Edna F. Tobey, wife of Menzo N. Tobey, died at her home in East Meredith, Tuesday afternoon at one o'clock. She had been in ill health for two years, but for the past week had gradually failed.

Mrs. Tobey was born in the town of Delhi on August 30, 1884, daughter of the late Edward and Francis Betts. Her early life was spent in the town of Delhi, but after the death of her parents her home was with Mr. and Mrs. L. R. Frisbee, at Davenport Center. On August 19, 1903, she was united in marriage to Menzo N. Tobey, they moving to East Meredith where most of her married life was spent. She leaves besides her husband, a little daughter, Lenore and one brother, Harold Betts of Eastwood. A host of friends grieve to learn of her passing. The funeral will be held at her late home Friday afternoon at one o'clock with burial at East Meredith.

## LATEST VICINITY NOTES

News of Otsego and Neighboring Counties Condensed for Busy Readers.

The annual supper and dance of the Halcottville Fire department, which was held last Friday evening, added about \$60 to the reserve fund. School expenses during the past year in the village of Roxbury amounted to \$12,304. Of this sum \$10,289 was expended for teachers' wages and \$2,015 for incidentals. The district had a balance of over \$2,000 on hand.

Pupils of the Meredith Sunday school had a contest recently in construction of bird houses. Practically all the boys and girls competed, and prizes were awarded to Glenn Van-Dyke, Lynn Munson, Elmer Eckler, Gertrude Bowlen, Laura Riddell and Betty Fisher.

Jack Shorkom, a former well known resident of Sidney, now residing in Afton, a few days ago, while fishing along the river islands caught and landed a German carp of the fabulous weight of 23 pounds, a genuine river elephant.

The masters and lecturers of the granges of the counties of Delaware, Otsego and Chenango, will meet in annual conference at Sidney May 24. The state lecturer will have charge of the conference. All subordinate masters and lecturers are expected to attend and as many other grangers as possible.

Application has been made for a charter to incorporate the Andes Free library, and trustees have been appointed by the village board. The building to be used is the Bohmann property, the gift of Mrs. Hugo Gorsch of New York city, to the village for this purpose.

The race for the benefit of the Cooperstown post of the American Legion, held last week Wednesday at the Knox school gymnasium, netted over \$200 to the organization.

Ex-United States Marshal Clayton L. Wheeler, who has had the offer of several fine positions in New York, has refused to accept any of them and decided to remain in Hancock.

A Binghamton man got his name on the first pages of the papers by his feat of devouring 18 eggs at one meal on Easter day. His gastronomic feat was surpassed by a Sidney man who ate 24, and whose son ran a good race with 18.

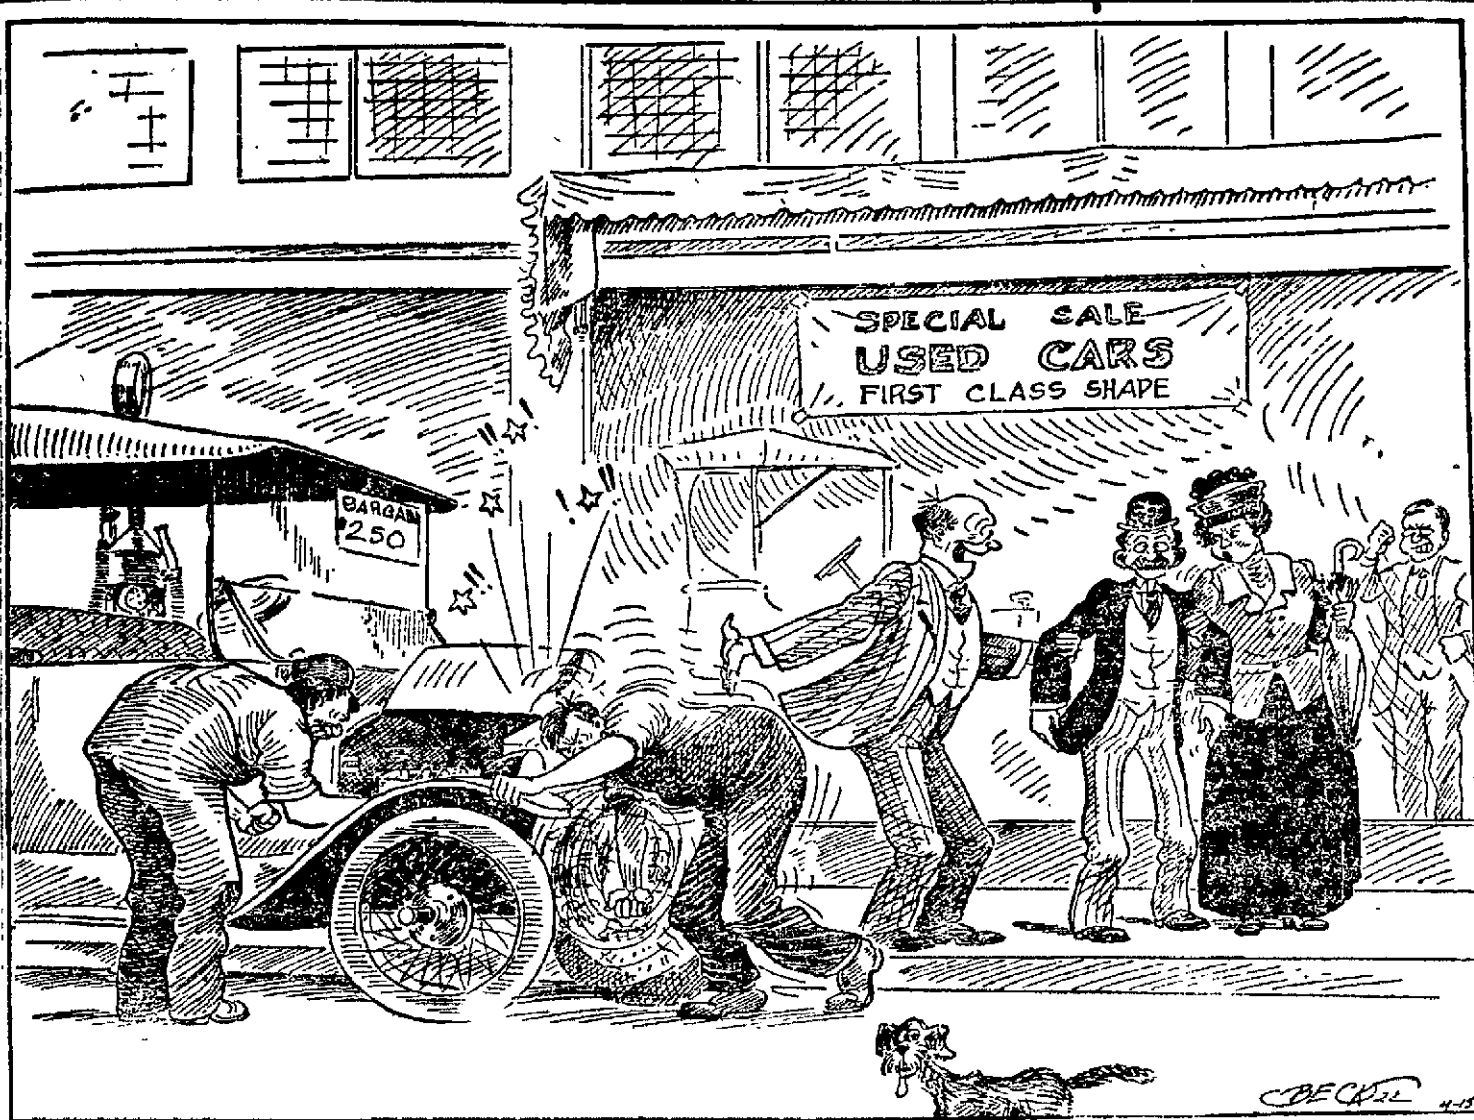

Sidney is boosting for a good ball team the coming season, and proposes to secure at least \$2,500 as a starter for the project. A paper circulated recently bears the names of 17 persons who have agreed to give \$50 each. When 20 such subscriptions are secured, a house to house canvass will be made to raise the balance.

William Howard Watson, a native of Unadilla and a son of the late Arnold B. Watson, died on April 5, after a long illness at his home in Buffalo. He was a brother of the late Mrs. E. F. Baker, Mrs. F. T. Sherman and Henry M. Watson.

The Schoharie Baseball league has now been organized. Cobleskill and Howe Cave being the last to join. The others are Schoharie, Middleburgh, Preston Hollow and Delanson. The limit of hired players is two for each team.

The attorneys of Schoharie county have formed a bar association. Judge Dow Backman was elected chairman of the meeting for organization and with Justice Nichols and Attorneys Palmer and Sidney will draft by-laws.

## SIMPLY? WELL, DON'T BE

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, bowels and liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's no sickness or pain after taking them.

Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with a "dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result. Take one or two nightly for a week. See how much better you feel and look. 15c and 30c.

## ADMIRAL STRAUSS ORDERED HURON TO CHINESE WATERS

Washington, April 26. — Admiral Strauss, commanding the Asiatic fleet, ordered his flagship, the Huron, from the Philippines to Chinese waters on his own initiative, it was said today at the navy department.

Officials here assumed that Admiral Strauss had acted in the light of dispatches reaching him from China as to the situation there and returned on his flagship to his station in Chinese waters in order to keep in close touch with developments and to be available in case protection of American citizens requires any action on his part.

## CAUSE OF PILES INTERNAL TREAT THEM INTERNALLY

Trying to permanently relieve piles through operations is as silly as it would be to relieve toothache by cutting off an arm. To relieve any physical disorder the cause must be removed before relief can be expected. Salves, ointments and suppositories are not only messy and inconvenient, but are external treatments and so can supply only temporary relief.

## Better Cooking and Meals on Time —at Less Cost

"Drat the oven" was the old-fashioned housewife's excuse for a spoiled batch of food or a tardy meal. And she was usually right; it was the fault of the oven.

When the modern housewife puts a Scientific Sterling in her kitchen she can count on accurate cooking results, and ready on the dot.

There is no wasted or poorly cooked food to run up market bills. Husband gets off to work, children off to school well fed and on time.

Moreover, with the Scientific Sterling, whether you are using gas or coal—all the fuel is converted into heat; there is no waste—therefore better cooking results are obtained with less fuel expense.

Let your Sterling pay for itself. Like any other serious investment it can be bought on easy terms. A very small amount puts this range in your home.

## WAR VETERANS TO MEET

Reunion of 27th Division is Planned for June 2 in New York City—Local Committee Appointed.

Veterans of the 27th Division, of whom there are probably more in Ontario and vicinity than in any other single section of the United States army during the World war, will be interested in the announcement that a reunion of that famous fighting unit will be held at the armory of the 7th Regiment (107th infantry) in New York city on Friday, June 2nd.

Major G. W. Augustin and Captain L. W. Baker, ex-officio, have been appointed a committee for the Ontario district with headquarters at the State Armory where, and at Major Augustin's office, all information as to railroad rates, accommodations and other particulars may be obtained.

The meeting of those veterans who did so much to turn the tide of battle and save those institutions in which this country believes, is regarded by those versed in military affairs as an occasion which lends itself, not only toward the development of ideas which mean much to the future welfare of the soldier, but also as an event which leads to the discussion of national policies in a manner calculated to be of constructive interest to the nation at large.

"I feel," declared Brigadier General Franklin W. Ward, chairman of the committee on Arrangements, "that a call should be sent to every volunteer who served with the units of the old New York Division at any time during its war service, asking him to reunite with his comrades, after a long separation, not only for the purpose of renewing the valued friendships made during the perilous days of the World war, but also to strengthen an association of soldiers, which as the years pass, will become more and more powerful as a factor in keeping alive the glories and traditions of New York's volunteer fighting division, in which each veteran individually assisted in creating."

"I wish to call attention to the fact that the 27th, of which we are so justly proud, was one of the few divisions organized wholly within the boundaries of one state; that it was one of the most famous combat units that fought in both France and Belgium during the height of the greatest of all wars; and that since the war, as an organization, it has always been to the fore in keeping alive those patriotic sentiments which in the time of national peril lead to victory on the battlefield and in times of peace, toward the advancement of ideas leading to progress and honorable national security."

"Men who served together meet again after the lapse of years and in imagination fight over the fields where they saw their comrades die. There is perhaps nothing in the world more touching than conversations of this sort, which stir human nature to its very depths."

"Furthermore, the business sessions of an organization like the 27th, are productive of discussions which tend toward the development of policies of real military value. Plans are made to assist the disabled veteran in receiving what is due him; legislation aimed toward the rehabilitation of the man who suffered grievously in his effort to serve is carefully scanned; and, last, but not least, it is made certain that such an organization as the 27th, so rich in memories and traditions, will be forever preserved as a unit."

### On the Police Blotter.

Charles Sullivan, a farmer residing on the Mill brook, had two loads yesterday, the one he drove to town and the one that caused Chief Horton to arrest him for public intoxication around noon time. At the time of his arrest Sullivan was certain that he wasn't drunk, but after an afternoon in the city jail he changed his mind and when arraigned pleaded guilty and was fined \$5 and given a suspended sentence of 30 days at Coopers-town.

Called to the 20th Century lunch last evening by a waitress, Officer Terrell found Thomas E. Cassidy, 25, of 229 Main street, a D. & H. trainman, in an intoxicated condition and creating a disturbance. The man was arrested and will face the judge in city court this morning.

John Tammack paid \$1 fine in city court yesterday for leaving his car parked Tuesday night without light on Broad street, in front of the 20th Century lunch, of which he is proprietor. Officer Jones affixed the "come see the judge" card.

Mrs. C. Manilla of Broadside, arrested early yesterday morning by a D. & H. officer for stealing coal, was given a suspended sentence of five days in jail when arraigned before City Judge Huntington.

### Was Seen at Cooperstown.

Most of our readers have noticed in the daily papers the report of the enormous meteor which fell on Sunday into the sea just off the New Jersey coast at Abury Park. That the meteor was of enormous proportions is attested by the destructive results when it exploded upon striking the water polluting the atmosphere with poisonous gases for more than a quarter of an hour. This meteor fell at about 9 o'clock, and was seen for miles around. Perhaps from no further point was it witnessed than in Cooperstown, where it was observed by Rev. E. C. Pyle and Rev. L. H. Halbert as they left the evening service in the Methodist church. To them the meteor appeared to be about the size of a man's hand and about the same shape with streamers of fire trailing out from it. (Freemans Journal.)

## MISS FEARLESS AND CO.

Final Presentation of Enjoyable Play Pleases Large Audience.

Miss Fearless and company, a play in three acts, which was presented at the First Baptist church Tuesday evening, was repeated with much success last night. The members of the cast gained additional confidence with the repetition, and the parts were exceptionally well interpreted. Miss Helen Fisher took the part of Margaret Henley, the heiress, and Mrs. Van Derhule was Miss Euphemia Addison, her chaperone. Mrs. Ralph Fandel as Sarah Jane Lovejoy from the "Lost Nation" gave a most interesting interpretation of an unusual role. Mrs. Oscar Beam as Katie O'Connor, the Irish maid, provoked bursts of laughter, as did Anna Darling as Just Lizzze, the goat. Ethlyn Webster, Ida Webster and Hazel Radley took the part of guests of Margaret Henley. Gladys Teed and Elizabeth Hallock were "sisters" and their performance was much enjoyed.

Between the second and third acts two readings were given by Miss Matilda Chismore, whose readings were so much enjoyed Tuesday night. The play was staged under the supervision of Miss Marilda Barrett, to whom much credit is due for the success of the play.

### Arbor Day in Araratonga.

Perhaps we have been giving too much credit to Nebraska, Araratonga seems entitled to the honor of originating Arbor day.

Araratonga, it may be explained, is an island nine days' voyage east of New Zealand.

Just about the time when Americans are celebrating this fine tree festival, the island authorities start forth to make their annual inspection of coconut groves, and make sure that every family has complied with a law that has prevailed there for generations. This law provides that the head of every family must plant and cultivate a coconut tree for each year of a child's age until the child is old enough to plant them himself. Thus the needs of the population are insured and the coconut groves are always well cared for.

If Americans would adopt a similar policy, in a few years the forestry problems would be solved.

### Headed for Delaware.

Early yesterday morning, at 3 a. m. to be exact, a motor car left the residence of Justice Kellough, and when last seen it was speeding across the viaduct headed for Delaware county. No word was sent to the police department, however, it being recalled by the sole observer that the Justice is fond of trout fishing and that his native county of Delaware is his favorite haunt when piscatorially inclined.

## STREET CARS IN MEXICO

Mexico Motor-Driven Street Cars Built on Dodge Brothers Chassis.

Almost coincident with the successful experiment in Port au Prince, Haiti, comes a report from Mexico City of a system of street cars built on Dodge Brothers chassis. According to William Denbow, Dodge Brothers Mexico City dealer, the motor railway was worked out only after a long series of experiments by the Monte Alto Railroad company. For the real test of the practicality of the system, a Dodge Brothers motor was chosen. The results were decisive.

"It lacked their cars up the steepest hills and around the worst curves at a speed of 26 miles per hour," says Mr. Denbow. "and that is just about as rapid movement as any man in his senses wants on that particular railroad."

The street car chassis weights approximately 6,900 pounds, with a wheelbase of seven feet. The transmission is adjusted with the original rear axle of the Dodge Brothers chassis, and sprockets for the chains are placed in the hubs of the wheels. The diameter of the wheels is 22 inches. With this car the railway company claims to be able to carry 40 passengers, and with the addition of a trailer 80 can be transported. The 18-mile trip from Mexico City into the interior takes about an hour.

The operation of the motor-railroad has been so successful that the Monte Alto officials are planning to add eight or ten more cars of similar construction. Railroad officials in Desaguadero, San Rafael and Atlixco are also studying the possibilities for similar cars in their territories.

With this novel use of Dodge Brothers chassis, says Mr. Denbow, the Mexican officials are ushering in a new phase of transportation in that country. Dodge Brothers chassis is also used on the same type of street railways in Haiti. In both instances the choice of this equipment was based on the unusual powerfulness, economy and reliability of the Dodge Brothers engine, which has long since won the complete admiration of the natives.

## ABANDON BOOTLEG THEORY

Arrest of Eight Negroes at Elkland, Pa., Promises Startling Developments in Steyer Murder Case.

Elkland, Pa., April 26. — The apprehension of eight negroes, one of whom is charged with having a revolver in his possession, and the secrecy of police officials surrounding the circumstances, brought about a new change of theory in the murder of Edward S. Steyer of Oneonta, chief of police here, last Sunday.

William Folds of Elkland, a tannery employee, is in jail charged with a felony in having a revolver in his possession. Harry Wilson, it is understood, has been released with the others. The men were taken from the tannery this afternoon, Folds being taken one side while his shoes were measured.

The presence of Police Chief C. G. Hanner of Corning in Elkland this afternoon, following a conference with District Attorney C. M. Elliott at Corning last night, has also thrown a new light on the case. The arrests were made by state troopers when Chief Hanner arrived. What connection Folds or the other men had with the case was not given out.

It is understood that police have practically abandoned the theory that bootleggers were responsible for the murder and are working from another angle, although they refuse to discuss it. The plans to arrest a man said to have been implicated in the bootlegging, it is believed, have been discontinued.

Startling developments are expected tomorrow as the result of today's investigation.
